

Group: 9

Date: 1/25 Time: 1:15 PM Duration: 30 minutes

Present, on time: Shreya Boyapati, Ayesha Quadri Syeda

Present, late: Dat Hyunh

Absent: Sarthak Patipati

Synopsis:

We discussed how best to execute the project and planned out content for the releases and the languages/tools we would like to use. We also planned out the general structure of the project.

Current Individual Activities:

Shreya and Ayesha will collaborate on the scenario for the first release. The first release will deal with creating the GUI and creating the databases to store user information and the required restaurant data. GUI will use JavaFX and database will use SQL; general logic will use Java.

Dat will set up Jira and create the project with description. He will populate it with stories, items and tasks.

Individual Action Items:

Dat: Setup Jira and populate it with tasks/items

Shreya: Create first release scenario - explain what the app is and the general step-by-step process of how it will run

Ayesha: Create concept diagram for scenario
