

Group: 9

Date: 4/12 Time: 1:00 PM

Duration: 15 min

Present, on time: Shreya Boyapati, Ayesha Quadri Syeda, Dat Huynh, Sarthak Patipati

Synopsis:

We discussed the final coding demo and how to best prepare for it. We plan to give an overview of the project and its main features and then demonstrate our prototype. We also plan to continue working on the various documentation.

Recent Individual Accomplishments:

Ayesha improved the design of the application to make it more consistent throughout. Dat worked on testing the application. Sarthak worked on the map screen and finished his sections of the coding report and the development report. Shreya created the progress bar in the macros tracking screen and finished her sections of the coding report and the development report.

Current Individual Activities:

All will work on preparing for the coding demo. This will include testing, fixing minor issues, working on the slides, and practicing the presentation.

All will also be working on documentation. Each member has a section of each report that they are responsible for. Each member will also work on the summary for the coding report based on the sections of the report that they were working on.

Individual Action Items:

Shreya - prepare for coding demo, 6-9 of project issues, references, coding report summary

Dat - prepare for coding demo, 1-3b of design report, 1-2 of project issues, index, VI & reference & index of coding report, coding report summary

Sarthak - prepare for coding demo, add meals to meal database, coding report summary

Ayesha - prepare for coding demo, 3c-4c of design report, 3e-5 of project issues, glossary, I & V & VII of coding report, coding report summary
